Norfolk, VA

## Summary

A driven Software Engineer and Master's student in Computer Science seeking dynamic opportunities to further skills and knowledge. With hands-on experience in software development, I bring a solid foundation in programming, system design, and project management. Currently pursuing advanced studies, I'm eager to apply theoretical insights gained from academia to practical problem-solving.

---

## Experience

### Software Engineer

XEBIA · Hyderabad, Telangana

07/2021 - 08/2023

Contributed to the development of a complete Production, finance and Resource planning application for the horticulture sector, improving plant identification and counting accuracy, leading to a 25% increase in yield accuracy.

### Associate Software Engineer

Xebia · Hyderabad, Telanagana

12/2020 - 06/2021

Contributed to the development and integration of Agriware, an Enterprise Resource Planning (ERP) product for the Horticulture industry, utilizing .NET, AL Language, React, JavaScript, and MSSQL Database, and contributed in transitioning the product to cloud.

### Software Engineer Intern

XEBIA · Hyderabad, Telangana

07/2019 - 11/2020

Engaged in diverse web development technologies, including Java, Spring, Hibernate, MVC architecture, REST API, and MYSQL, and collaborated on the creation of tools for HR application evaluation and internal conference hall reservation management using React hosted on the cloud.

---

## Skills

Java, Python, React, SQL, ERP, Spring, Git, Angular

---

## Education

### Masters in Computer Science

Old Dominion University · Norfolk, VA

05/2025

MS Graduate Student in Computer Science with 3.7+ GPA.

### Bachelors in Computer Science and Engineering

CMR Technical Campus · Hyderabad, Telangana

09/2020

Undergrad in Computer Science and Technology.
